

Octopus X Series

800W/400W LED Grow Lights

Octopus 800X

Octopus 400X

1 Introduction

This manual describes the installation and connection of the product and also describes how to use the product. Mounting and installing of the Octopus X Series LEDs may only be executed by certified service personnel. Please read and understand this manual completely before using the product. Only use the product as specified in this manual.

2 Product Information & Specifications

2.1 General Information

Product Name	Octopus X Series LED Grow Lights				
Manufacturer	Shenzhen VANQ Technology Co., Ltd.				
Version	US	EU	UK	AUS	
Plug Type	US plug 120-277V	EU plug 230V	UK plug 240V	AUS/NZS plug 240V	
Input Voltage	120-277VAC	100-230VAC	100-240VAC	100-240VAC	

PNote: Other types of plug are also available, please check with our sales engineers directly.

	Power cord with UK plug 240V, 1.5m/5ft	MG-PC-UK240	
	Power cord with AUS/NZS plug 240V, 1.5m/5ft	MG-PC-AU240	
Dimming cables	T-shape daisy chain connection dimming cable, 2m/6.5ft	MG-DCC-T01	
	1/8" Adjustable Ratchet Hangers 1.8m/6ft (Set of 2 - Holds 150 lbs/100Kg)	MG-RH-01	
Light Hanger	Steel Wire Rope Hanger 30cm/1ft (Set of 4 - Holds 150 lbs/100Kg)	MG-WR-01	

2.4 Environment

The product is intended to be used in indoor growing environments. The product can be used in wet environments.

The product may not be used outdoors. The Octopus Series LEDs light functions optimal when the max ambient temperature is between $20\sim40^{\circ}$ C.

2.5 Legal

CE LVD approval according to: EN 60598-2-1&EN 62471&EN 62493&EN 62778

```
CE EMC approval according to: EN 55015&EN 61547&EN 61000-3-2/-3
```

3 Packing List

Please follow the content of the list and carefully check whether the purchased equipment and accessories are complete. If you find that the actual product does not match the list, or the product is damaged, please contact us immediately and provide photos or videos!

No.	Product Name	Model	Quantity
1	Octopus 800X/400X	800W/400W	1
2	1/8" Adjustable Ratchet Hangers	1.8m/6ft	2
3	Steel Wire Rope Hanger	30cm/1ft	2
4	Power Cord	1.5m	1
5	Dimming Cable(optional)	T-Shape	1
6	VD100 Controller(optional, buy separately)	0-10V Dimming	1

4 Safety Precautions & Warnings

Warning!

Carefully read the warnings below before using or working with the product!

- Always adhere to the local rules and regulations when installing or using the LED light.
- ▲ DO NOT connect to live power until installation is complete.
- ▲ Do not open or disassemble the LED light. Opening or modifying the LED light can be dangerous and will void the warranty.
- ▲ Do not use the LED light when either the LED light or its power cord are damaged. Replace the power cord only with original certified cords.
- Modifications to the cords can lead to unwanted electromagnetic effects, which makes the product not comply with legal requirements.
- ▲ Do not expose the LED light to:
 - (ambient) temperatures outside the specified range;
 - dust and contamination;
 - direct sunlight during use or HID light that could heat up the ballast.
- Always disconnect the LED light from mains before performing any maintenance.
- Always allow for a cool down period of at least 30 minutes before touching the LED bars. Touching the LED bars when the light is lit or immediately afterwards can result in severe burns!
- ▲ Do not use the LED light near flammable, explosive or reactive substances. Do not use sulfur vaporizers or water misters.
- ▲ The installation and use of the LED light is the responsibility of the end user. Incorrect use or installation can lead to failure and damage to the LED light. Damage to the LED light and electronic circuitry as a result of incorrect installation and use revokes the warranty.

5 Installation

*All the LED fixtures in this series can be installed according to the same instructions.

Warning!

- Mounting and installing of the LED light may only be executed by certified service personnel, in accordance with the applicable local laws and regulations.
- 1 The installer is responsible for correct and safe installation.
- A Ensure the local cabling can support the voltage and current requirements of the LED light.
- Avoid coiled cords and keep mains leads separated. This prevents electromagnetic interference.
- ⚠️ Do not connect or disconnect the LED light under load.
- A Mount the system to something that can hold the weight of the LED light.

5.1 Assemble the LED bars with the holding fixture

The suggested height from the plant canopy to the LED light is: During vegetative stage, 1ft - 1.5ft/30cm - 45cm During flowering stage, 0.6ft - 1ft/15cm - 30cm Below is the PPFD map of 5ft x 5ft/1.5m x 1.5m at 3 different hanging heights.

Octopus 400X

Hanging Height: 12" (30cm)

Average PPFD of 4ft x 4ft footprint: 754 µmol/m²/s

411/1.21

Average PPFD of 4ft x 4ft footprint: 611 µmol/m²/s

Average PPFD of 4ft x 4ft footprint: 590 µmol/m²/s

Octopus 800X

Hanging Height: 6" (15cm)

Average PPFD of 5ft x 5ft footprint: 884 $\mu mol/m^2/s$ Average PPFD of 4ft x 4ft footprint: 1195 $\mu mol/m^2/s$

Hanging Height: 12" (30cm)

5ft/1.5m

Average PPFD of 5ft x 5ft footprint: 817 µmol/m²/s Average PPFD of 4ft x 4ft footprint: 1002 µmol/m²/s

Hanging Height: 18" (45cm)

Average PPFD of 5ft x 5ft footprint: 724 µmol/m²/s Average PPFD of 4ft x 4ft footprint: 834 µmol/m²/s

5.3 Connecting the LED light to the mains

Warning!

- A Make sure mains power is switched off.
- A Ensure the cord is not coiled and does not touch any hot surfaces.
- ▲ Connect the cables according to local rules, safety regulations and electrical code.
- Ensure external switching gear can cope with the inrush current of the LED fixture. Always use a double pole contactor suitable for switching a capacitive load. Never use household timers to switch the LED fixture!

6 Connecting LED Light To A Controller

Warning!

A Do not connect or disconnect the controller with LED light under load.

 $rac{1}{
m A}$ Ensure the power cord and the controller cables do not touch any of the LED bars.

Using a daisy chain setup, a maximum of 50pcs LED lights can be connected to one controller. The controller can dim the LED light from 0 to 100%.

- Connect the dimming cable to the dimming port on the first LED light.
- Use dimming cable (T-shape) to connect the dimming port of the following LED light.
- Repeat these steps to connect up to 50pcs LED lights.

VD-100 0-10V Dimming Controller

7 Inspection, maintenance and repair

Caution! Do not clean the LED fixture with detergents, abrasives or other aggressive substances.

• Regularly check the LED fixture for dust or dirt buildup. Clean if necessary. Contamination may cause overheating and decreased performance. Clean the outside of the LED fixture using a dry or damp cloth.

• Regularly check the cables of the LED fixture to ensure it is undamaged.

8 Storage and disposal

• Store the LED fixture in a dry and clean environment, with an ambient temperature of-20~85° C.

• The product must not be discarded as unsorted municipal waste, but must be collected separately for the purpose of treatment, recovery and environmentally sound disposal.

9 Warranty service

VANQ technology warrants the mechanical and electronic components of their product to be free of defects in material and workmanship if used under normal operating conditions for a period of three(3) years from the original date of purchase. If the product shows any defects within this period and that defect is not due to user error or improper use, VANQ technology shall, at its discretion, either replace or repair the product using suitable new or reconditioned products or parts. In case VANQ technology decides to replace the entire product, this limited warranty shall apply to the replacement product for the remaining initial warranty period, i.e. three(3) years from the date of purchase of the original product. For service, return the LED light to your shop with the original sales receipt.
